Replaces: SPS-BP-LE-027	Distribution: All Members
Last Reviewed: August 2023	Expiration Date: Indefinite
Approved By: Board Chair	Signature: <i>Paul Wiersma</i>

A Legislative/Regulatory Requirements

Section 29 of the Adequacy Standards Regulation requires a police services board to have a policy on traffic management, traffic law enforcement and road safety. In addition, section 8 requires the Chief of Police to establish procedures on traffic management, traffic law enforcement and road safety.

In addition, section 5(1)(d) requires that police services have technical collision investigation, reconstruction and breath analysis investigative supports. These supports will be provided by members of the Sarnia Police Service.

Section 14(1) requires the Chief of Police to establish procedures and processes in respect of technical collision investigation, reconstruction and breath analysis investigative supports.

Furthermore, section 14(4) requires the Chief of Police to ensure that persons who provide technical collision investigation, reconstruction and breath analysis investigative supports have the knowledge, skills and abilities to provide that support.

Finally, section 29 requires a police services board to have a policy with respect to general technical collision investigation, reconstruction and breath analysis investigative supports.

B Board Policy

1. It is the policy of the Sarnia Police Services Board with respect to traffic management, traffic law enforcement and road safety that:
 - (a) Technical collision investigation, reconstruction and breath analysis investigative supports will be provided by members of the Sarnia Police Service;
 - (b) The Chief of Police will:
 - (i) Develop and implement a traffic management, traffic law enforcement and road safety plan;
 - (ii) Establish procedures on traffic management, traffic law enforcement and road safety, including procedures to address road closures and minimizing the interference of traffic; and
 - (iii) Ensure that persons who provide technical collision investigation, reconstruction and breath analysis investigative supports have the knowledge, skills and abilities to provide that support.
