A Legislative/Regulatory Requirements

Community Safety and Policing Act, 2019, S.O. 2019, c. 1, Sched. 1, provides that a Board shall provide adequate and effective policing in the area for which it has policing responsibility as required by **Section 10** of the **CSPA**.

O. Reg. 405/23: Police Uniforms and Equipment of the **CSPA** sets out requirements that the Board shall provide to all members of a police service maintained by the Board all articles of uniform and equipment necessary for the performance of duty.

Occupational Health and Safety Act, R.S.O. 1990, as amended, sets out the responsibilities of employers, supervisors and workers for workplace safety.

B Policy Statement

1. The Board recognizes the importance of workplace and public safety, including safety with respect to body armour, and therefore it is the policy of this Board to require the Chief to set out procedures as directed in this by-law with respect to the provision, use and function of body armour equipment.

C Board Policy

1. It is the policy of the Sarnia Police Services Board with respect to equipment-body armour that the Chief of Police will:
 - (a) Ensure the provision of body armour equipment that is constructed to provide the level of protection necessary for the performance of duty that addresses:
 - (i) The type of weapons members are likely exposed to;
 - (ii) Protection for members from their own handguns and ammunition that are in accordance with prescribed specifications;
 - (b) Ensure the provision of body armour that is purchased from manufacturers that:
 - (i) Practice effective quality control for testing and labelling in accordance with current National Institute of Justice (NIJ) Standards/Requirements on Ballistic Resistance of Body Armor;
 - (ii) Are certified under current International Organization for Standardization-ISO 9001 standards for production and manufacturing; and
 - (iii) Ensure that the body armour provided is listed on the NIJ Compliant Products List, including replacement panels and carriers, in accordance with current NIJ Standards/Requirements;
 - (c) Ensure that each member uses, maintains and cares for the body armour provided in accordance with the manufacturer's instructions;
 - (d) Ensure that a formal and documented inspection program is in place that addresses wear and tear;
 - (e) Ensure that members receive the appropriate training on the legislative requirements of **OHSA** and information on use and care, as well as the benefits and limitations of body armour; and
 - (f) Consult with designated employee representatives regarding the acquisition of body armour.

Note: Publication of this guideline revision does not invalidate or render unsuitable any body armour models previously determined by the NIJ to be compliant to either the NIJ 2005 Interim Requirements or the NIJ Standard-0101.04 Rev. A Requirements. While it may not be necessary to remove these existing armours from service, agencies are advised to always require their procurements to meet or exceed the most recent and up-to-date version of this guideline.
